

Comprehensive Approach to cyber roadMap coordINation and develOpment

Cyber Security

Mobile, Mobility and Cyber Security

CAMINO's 2nd Experts Workshop

3rd March 2015

Barcelona, Spain

CAMINO consortium is pleased to invite you to the **2nd CAMINO workshop, which will take place in Barcelona, on 3rd of March, 17-21h**. CAMINO workshop will be organized simultaneously with **Mobile World Congress (<http://www.mobileworldcongress.com/>)**, the world's largest annual gathering of mobile and related.

This 2nd workshop will mainly address issues related to "Mobile, Mobility and Cyber Security". Organizing this workshop in Barcelona, the European benchmark in Smart Cities, and during the MWC, brings CAMINO the unique opportunity to gather in our workshop a large number of European and world stakeholders in mobile, both technology and regulatory fields.

The envisaged format will be short speeches (10-15min each), organized in 3 sessions, on topics related to "Mobile, Mobility and Cyber Security". The main objective of this workshop is to present CAMINO project, its achievements and objectives, and in particular the first version of **CAMINO Roadmap** in order to obtain valuable contributions from the mobile communications experts attending MWC.

The outcome will thus help towards the clarification of the various interpretations, commonalities, and differences, thereby paving the way for a more structured and well-founded approach to future Cyber Security roadmaps and initiatives, including research and technology, education and training, ecosystems and standards.

Besides invited keynote speeches, the workshop will include:

- Presentation of CAMINO report on First Draft Cyber Security Roadmap
- Life demonstrations of LBASense

The event will take place in Happy Rock Bar (Plaza España) where we will organize a speaker corner and the presentations will be displayed simultaneously on all the screens. We plan to host an interesting and fruitful workshop (we expect about 150 persons) and we will offer tasty Spanish tapas and beer!!!

Representatives from academia, industry and policy makers are invited to take part of this event.

PRELIMINARY AGENDA

17:00 – 17:10	Welcome	Dr. Thomas Staub; CSO, DFRC
17:10 – 17:25	CAMINO → project and CAMINO roadmap introduction	Iwona Maciejewska; Project Manager, DFRC
17:25-17:40	IoT and Mobile - the security and Privacy threats	Ajit Jaokar, Univ of Oxford, EIF
17:40 -17:55	CYBERroad → Development of the Cybercrime and Cyber-terrorism Research Roadmap	Isidoros Monogioudis; Cyber Defence Analyst at Hellenic Ministry of Defence
17:55 – 18:10	Business Opportunities for SMEs in Cyber Security	Marina Martínez, CDTi SOST Brussels, H2020 Programme Officer

18:10 – 18:25	Break	
18:25 – 18:40	City Flow - real time mobility analytic	Chiara Bertoldini, COO, DFRC
18:40-18:55	Beyond IDS and IPS: A R&D approach to Automated Intrusion Response Systems	Victor Villagra, associate professor in telematics engineering at the UPM
18:55-19:10	End to end security in Internet of the Things and Cloud Computing services	Ignacio Garcia Vega, R&D&i Programme Manager at Wellness Telecom
19:10 – 19:25	The Italian job: fiction or reality?	Santiago Caceres; PMP at ETRA
19:25 – 19:40	Break	
19:40 -19:55	Cyber security threats and solutions adapted for Communications in the Naval Environment	Georgios Stivritis; Hellenic Navy
19:55 – 20:10	Network Security for Cooperative Mobility Systems	Alexey Vinel, professor at Halmstad University
20:10 -20:25	Security Assurance and how to evaluate confidence in Communication Networks	Dr. Carlos E. Palau Salvador; UPV
20:25-20:40	Mobile hacking	Erel Rosenberg, CTO, DFRC
20:40-21:00	Summary and wrap-up	DFRC

VENUE:

The event will take place in Happy Rock Bar (Plaza España) where we will organize a speaker corner and the presentations will be displayed simultaneously on all the screens. We plan to host an interesting and fruitful workshop (we expect about 150 persons) and we will offer tasty Spanish tapas and beer!!!

Some information about Barcelona:

Barcelona is the capital city of the autonomous community of Catalonia in Spain and the country's 2nd largest city. Founded as a Roman city, in the Middle Ages Barcelona became the capital of the County of Barcelona.

Barcelona has a rich cultural heritage and is today an important cultural centre and a major tourist destination. Particularly renowned are the architectural works of Antoni Gaudí and Lluís Domènech i Montaner, which have been designated UNESCO World Heritage Sites. The headquarters of the Union for the Mediterranean is located in Barcelona. The city is known for hosting the 1992 Summer Olympics as well as world-class conferences and expositions and also many international sport tournaments.

Barcelona has the dynamic and open personality so typical of Mediterranean cities. It is the perfect city to relax in, stroll around and enjoy. Barcelona has its own way of life, which makes it unique!

IMPORTANT DATES:

Registration deadline for workshop: February 20th, 2015

Please be aware that the number of participants is limited and registration is on a first-come-first-serve base.

The event page is online and open for registration. Please find it at <http://mobile-mobility-and-cyber-security.eventbrite.com>

Workshop: March 3rd, 2015

ABOUT CAMINO PROJECT:

CAMINO is the Coordination and Support Action titled "**Comprehensive Approach to cyber roadMap coordINation and develOpment**", a European research project in the security domain "Developing a Cyber crime and cyber terrorism research agenda" funded by the European Union's 7th Framework Programme.

The two-year project commenced on the 1 April 2014. The CAMINO Consortium comprises ten partners from eight European countries: ITTI Sp. z o.o. and Police academy from Poland; Everis Aeroespacial y Defensa S.L. and S21SEC Information Security Labs S.L. from Spain; Sec-Control Finland Ltd. from Finland; DFRC AG from Switzerland; Espion Ltd. from Ireland; CBRNE Ltd. from the UK; The National Research Council CNR from Italy, and University of Montpellier from France. There are also 22 supporting members including overseas external experts. CAMINO is led by ITTI, and is coordinated by Dr. Michał Choraś.

In April, the Consortium celebrated the project kick-off meeting in Poznań (Poland). All partners were present and actively participated in specific sub-group working sessions aiming to better define the further workplan and the actions needed to meet the project goals.

The CAMINO main strategic objectives are as follows:

1. Develop a comprehensive cyber crime and cyber terrorism research agenda, and

2. Initiate long-term activities with the aim to provide a stable EU platform of security research experts and organisations.

CAMINO will prepare the guidelines, its professional community's recommendations and a comprehensive research roadmap for the European Commission regarding fighting cyber crime and cyber terrorism. CAMINO is offering a long-term EU cyber research platform with the cyber security "think tank". CAMINO is already strongly linked to the EU Integrated Mission Group for Security (IMG-S) Cyber Security Thematic Area (TA7).
