Famous quotes:

“Ask for no guarantees, ask for no security, there never was such an animal. And if there were, it would be related to the great sloth which hangs upside down in a tree all day every day, sleeping its life away.”

“

“An ounce of prevention is worth a pound of cure.”

Peelian Principles

Peelian Principle 1 - *“The basic mission for which the police exist is to prevent crime and disorder.”*

Peelian Principle 2 - *“The ability of the police to perform their duties is dependent upon public approval of police actions.”*

In 1829 Sir Richard Mayne wrote:

"The primary object of an efficient police is the prevention of crime: the next that of detection and punishment of offenders if crime is committed. To these ends all the efforts of police must be directed. The protection of life and property, the preservation of public tranquillity, and the absence of crime, will alone prove whether those efforts have been successful and whether the objects for which the police were appointed have been attained."

Peelian Principle 9 - *“The test of police efficiency is the absence of crime and disorder, not the visible evidence of police action in dealing with it.”*

New Prevent Strategy 2015

- Speaking about this latest development in the war on terror, Home Secretary Theresa May said: “Prevent is an integral part of our counter-terrorism strategy and aims to stop people from becoming terrorists or supporting terrorism.”
- The Home Secretary continued: “Our new Prevent strategy will challenge extremist ideology, help protect institutions from extremists and tackle the radicalisation of vulnerable people. We will not fund or work with organisations that do not subscribe to the core values of our society.”
- In conclusion, May stressed: “Above all, Prevent will tackle the threat from home-grown terrorism.”
